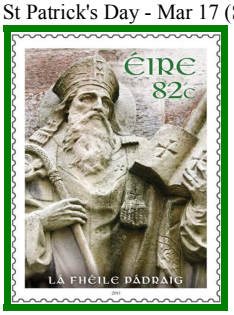
St Patrick's Day - Mar 17 (Scott #1912)



Editor's Corner

Earth Day - Apr 22 (Scott #3189a)

While looking for April holidays, I found some interesting information about Earth Day, and Arbor Day.

On Earth Day, April 22, more than one billion people around the world will take part in the 43rd Anniversary of Earth Day. From Beijing to Cairo, Rio to New York, Melbourne to London, New Delhi to Johannesburg, communities everywhere will help put a Face to Climate Change and mobilize their peers to become a part of the solution.

The genesis of Earth Day is credited to Gaylord Nelson, a U.S. Senator from Wisconsin. After witnessing the ravages of the 1969 Santa Barbara oil spill, and inspired by the student anti-war movement, he called for an environmental teach-in, or Earth Day, to be held on Wednesday, April 22, 1970. Over 20 million people participated that year, and now Earth Day is observed on April 22 each year by more than 500 million people and several national governments in 175 countries. Numerous communities celebrate Earth Week, an entire week of activities focused on environmental issues.

Arbor Day, April 22, (from the Latin *arbor*, meaning tree) is a holiday in which individuals and groups are encouraged to plant and care for trees. It was originated in Nebraska City, Nebraska, United States by J. Sterling Morton. The first Arbor Day was held on April 10, 1872 and an estimated one million trees were planted that day. Many countries now observe a similar holiday. Though usually observed in the spring, the date varies, depending on climate and suitable planting season.

APS Circuit Books	John Clay

WE WELCOME VISITORS

SAPA is always happy to welcome visitors. We hope you will enjoy our activities and wish to join us as members.

All visitors are welcome to purchase stamps at our auctions, bourses and bag nights. Anyone wishing to sell or trade at our meetings must be a member.

AUCTION ETIQUETTE :

Be sure to get your Bidder's number card before the auction starts. Come early and look over the lots for sale before the auction. During the auction, lots will be identified by their lot number and a brief description of the lot.

When bidding for a lot, please raise your Bidder's Number card and keep it up until you no longer wish to bid. Flipping the card up and down is confusing for the auctioneers.

Please keep extraneous conversation to a minimum. This makes it easier for everyone to hear what the auctioneer is selling, and allows the auctioneer to more easily keep track of the bidding.

While your purchases will be given to you during the auction, please wait until the end of the auction to pay for them. Your name will be called as the tallys are completed. Those who are only buying will be called first. Buyers who are also sellers will be called next. Checks made out to S.A.P.A. are acceptable. Sellers with unsold lots should be sure to pick up their lots before leaving.

Please be sure to return the Bidder's Number cards so that we can use them again in the following auctions.

We look forward to meeting you.

PRESIDENT'S MESSAGE

I was glad to see the final days of the year draw to a close. It had so much sorrow, sickness, and sadness.

I was ready to welcome January with a brass band.
But as the first month of the new year arrived, so did more sad news. I lost my wife of 57 years on the 14th of January, some friends lost their parents and relatives found out they had cancer.

Thankfully, not all the news has been bad. Our club meetings started off the year with a bang. Our first auction was a winner. Fine items were picked up within a reasonable price range.

Our 'Show and Tell' meetings had interesting topics presented by our members. Speaking of topics, those of you that could not make "Varations of Classics" on Jan 18th sure missed a good one. Thanks Nelda. On Feb 15th, Dr. Eric Sheppard made a presentation on the "SS Manhattan". His programs are always fascinating and informative, and we thank him, also.

Be sure to read the Program Notes for the upcoming programs. We will be there knowing another interesting evening will be taking place.

And don't forget the Saturday Boursettes. They offer great bargains, access to the club library, and daylight meetings for those of you who have difficulty driving at night.

I hope to see more of our members present at all the different meetings. ***John Clay***

PROGRAM NOTES

March 15, 2013 "Butterflies on Stamps" by Judy Grant Judy has given us some very interesting and informative programs in the past. She has promised to give us a presentation on her growing collection of butterflies.

This should be very interesting. The list of butterflies from the American Topical Association is 121 pages long.

I wonder how she has them organized?????

I, for one, am looking forward to her presentation.

April 19, 2013 "The Czech Republic" by Brother Ed Loch Brother Loch prides himself on being an historian. I suppose one would need to be "detail" oriented if he is in charge of the archives for the Archdiocese in San Antonio.

He says he has been getting this program ready for us for some time. It should be a very interesting and informative program.

Yours in philately, Pat Richmond

UPCOMING SHOWS & BOURSES

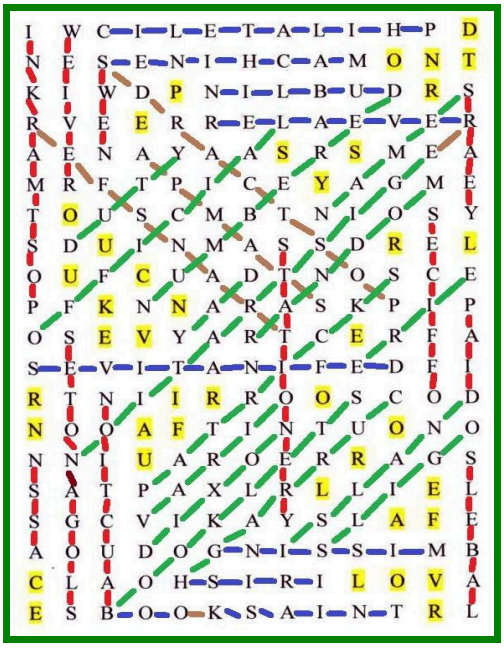
Don't press your luck—Never iron a four leaf clover.



"Variations of the Classics"
By Nelda Greer January 18, 2013

"Howdy Folks!!" said Nelda Greer as she and her entourage entered the arena. As usual, Nelda made a grand entrance for the evening's entertainment.

Nelda started her program by passing out four plate blocks of the 'squash blossom' stamp and challenged the audience to find the differences in each. One of those plate blocks appears at left: note the USPS in microprinting on the design detail.

Some people were successful in spotting these differences, but not many. However, Nelda graciously explained them to us.

Nelda passed out some samples of tools of the trade used to find the tiny differences in a classic that might make the difference between a cost of 50 cents and $500.00 or more. The main tools she shared with us were:

1. Lens (magnifying glass)
2. Perforation gauge
3. U V Lamp
4. Water marking fluid
5. Color gauges

Two publications Nelda brought to verify some of her special items were:

Great Britain Stanley Gibbons ***Queen Victoria – Vol. I*** and ***Edward VII to King George VI.*** These volumes are available at Stanley Gibbons Publications, Ltd., 391 Strand, London, WC2ROLX.

Among the other beautiful, expensive classics she shared with us was her collections of the varieties of the Penny Reds. She said that they seemed to 'find' her.

Everyone there was put to work examining Nelda's Jewels.

Nelda ended her presentation by giving us two very good websites for our reference and perusal. She and Harry recommend them highly.

www.jamesdire.net/w-f.html and www.1847usa.com

As you can see from the pictures at left and on the first page, everyone was mesmerized by Nelda Greer's delightful presentation. Once again, Nelda you have come through like a champ.

There was a little fluff—she brought some delicious chocolates for everyone who stayed through the entire presentation. Her presentation was reward enough, but the chocolate was a clever dessert. Thanks, Nelda and Harry!!!

Yours in philately, Pat Richmond
