Editor's Corner

Liechtenstein 2011

Why eggs? People have been decorating eggs for thousands of years. The oldest known is an engraved ostrich egg from Africa that is over 60,000 years old.

People consider eggs symbolic of the renewal of life in the spring. Christians adapted the idea to represent Jesus' resurrection from the tomb. Early eggs were died red to for the color of Christ's blood. The shape was considered reminiscent of the rock sealing the grave.

Traditionally, eggs were amoung the foods forbidden during Lent, so to preserve them, they were boiled, then eaten with the coming of Easter. Of course, plain white eggs just need to be decorated to make them special, so with vegetable, and later aniline dye, they were beautifully decorated to celebrate Easter.

Today, Easter eggs can be chocolate, or plastic with toys or candy inside, or real eggs, decorated with love.

Wishing all our friends and their families a Joyful Easter.

WE WELCOME VISITORS

SAPA is always happy to welcome visitors. We hope you will enjoy our activities and wish to join us as members.

All visitors are welcome to purchase stamps at our auctions, bourses and bag nights. Anyone wishing to sell or trade at our meetings must be a member.

AUCTION ETIQUETTE :

Be sure to get your Bidder's number card before the auction starts. Come early and look over the lots for sale before the auction. During the auction, lots will be identified by their lot number and a brief description of the lot.

When bidding for a lot, please raise your Bidder's Number card and keep it up until you no longer wish to bid. Flipping the card up and down is confusing for the auctioneers.

Please keep extraneous conversation to a minimum. This makes it easier for everyone to hear what the auctioneer is selling, and allows the auctioneer to more easily keep track of the bidding.

While your purchases will be given to you during the auction, please wait until the end of the auction to pay for them. Your name will be called as the tallys are completed. Those who are only buying will be called first. Buyers who are also sellers will be called next. Checks made out to S.A.P.A. are acceptable. Sellers with unsold lots should be sure to pick up their lots before leaving.

Please be sure to return the Bidder's Number cards so that we can use them again in the following auctions.

We look forward to meeting you.

President's Message

Some events of the last week got me wondering about other types of collections that someone might start. The first would be political mailings with campaign caches and certain stamps. For example a Republican candidate might use a Ronal Reagan stamp as part of their postage together with an American flag stamp. A Democrat might use a John Kennedy stamp together with a Statue of Liberty flag. The death of Supreme Court Judge Antonin Scalia got me wondering how many Supreme Court Justices have ever been featured on stamps. The only one that comes to mind is Thurgood Marshall. A quick Google search show a wide variety of Supreme Court and law related stamps and covers. Canada even has tax stamps for their Supreme Court. Who would have known?

PROGRAM NOTES 2016

APR 15 - "Railroad Covers" by George Garten George tells me that his presentation will include Railway Post Offices (RPO), First Day Covers and event covers with historical information from train magazines, The Journal of the Philatelic Americans and other publications. It will also include worldwide train covers and stamps but mainly the focus will be on USA railroads.

George has presented programs in the past that were very interesting and informative. George, we are expecting the same quality of program this time.

Yours in Philately, Pat Richmond

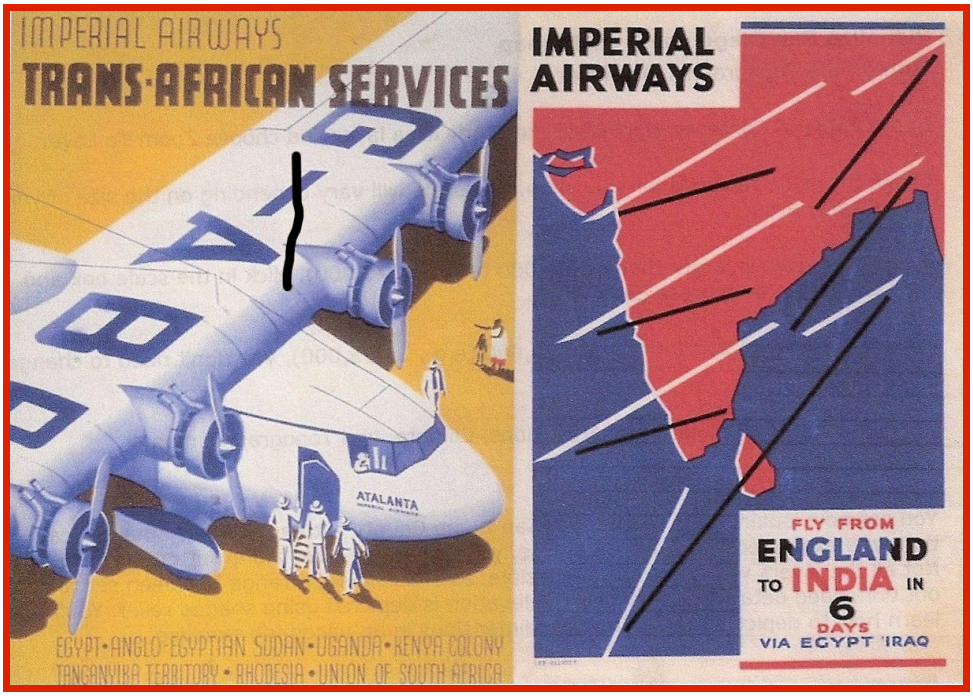
"First Flight Covers of Imperial Airlines"

By

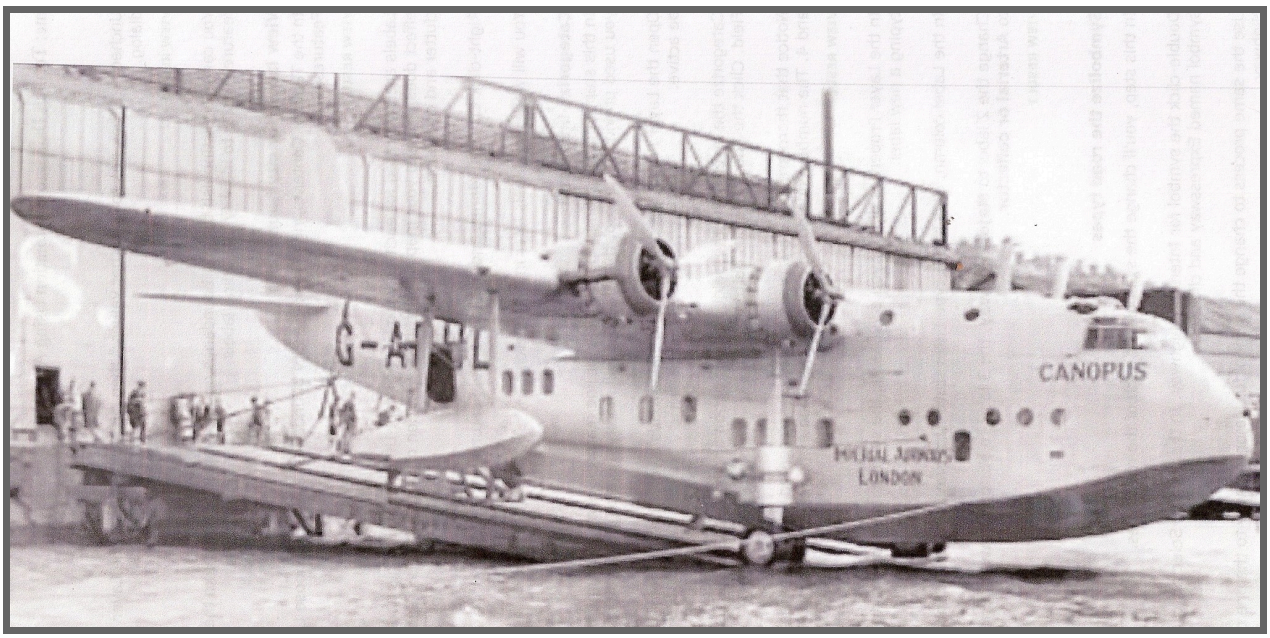
Dr. Harry Greer

January 22, 2016

Dr. Harry promised us a good program on the first airmail between Britain and Australia. It was on December 8, 1934. Dr. Harry had a very interesting presentation of how the Imperial Airlines routed their flights through Africa and India. ➜



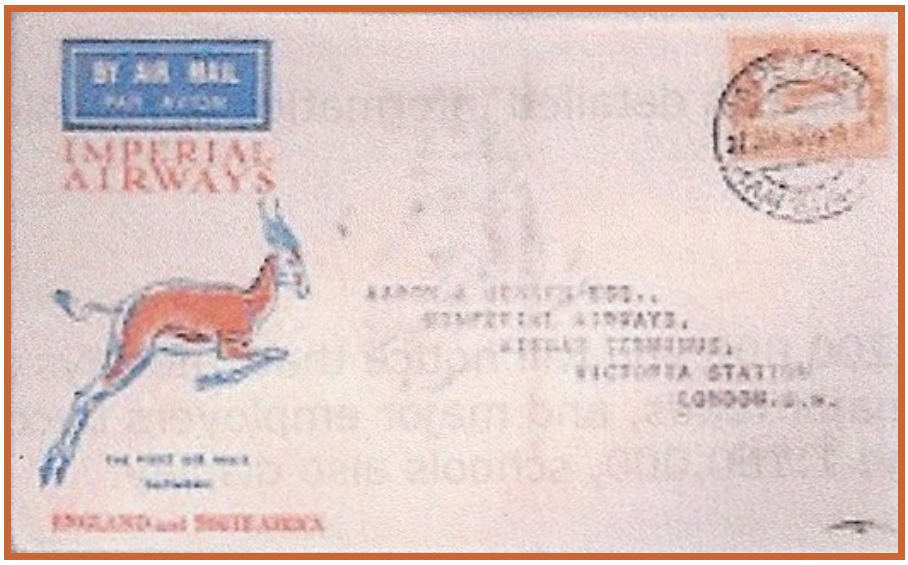
The videos showed utterly barren landscapes and deserted countryside. However, that was to be expected in 1934 in the type of territory it traveled to.



By 1934, the Short S23 C-class Empire Flying boat was also beginning the route down the Nile and lakes of Africa to Cape Town. These were abandoned by 1940 with the beginning of World War I.

Flying mail became the engine that drove these flights and the first flight covers to exotic destinations are highly collectible.

Dr. Harry showed his collection, but he had the following as an example of how exotic they were. He stated that these covers are available from Ebay. But they are expensive:



Dr. Harry's presentation was well attended as you can see:

Your program was very interesting Dr. Harry. Thanks for all the research you did for the program. Those who were not there missed a really good program. Thank you!!

Yours in Philately,

Pat Richmond
