#1082 - Labor Day

#5137-40 - Halloween

EDITOR'S CORNER

There are three important dates to note in this issue of the Philatex.

1) Jack Virta, needs to receive all lots for the auction by the September 14th meeting. See page 3 for more information.

2) **BAGNITE IS COMING SEPTEMBER 21!** Save your pocket change! ☺ We will have many bags full of stamps for you to buy at the amazing price of 5¢ each.

3) Our 2nd Annual Fundraiser & White Elephant Auction is on October 12. This is our second auction to help raise money for our club, and we are hoping to have as much fun as we did last year, when we raised $838.58 dollars. I wonder how much we will make *this* year? Remember that any type of item that you wish to donate will be accepted for this auction. Stamps and stamp paraphernalia, books, decorative items, food, things you aren't using anymore that you think someone else will buy—will all help our club to stay in good financial shape. Anything that doesn't sell will be returned to owner. We could also use lots of members to come to the auction willing to buy anything that takes their fancy. You are also encouraged to tell your friends about this interesting auction. All buyers welcome. It'll be fun!

Texas Philatelic Association:	Dr. Eric Shepherd
APS Circuit Books	Dr. Eric Shepherd

WE WELCOME VISITORS

SAPA is always happy to welcome visitors. We hope you will enjoy our activities and wish to join us as members.

All visitors are welcome to purchase stamps at our auctions, bourses and bag nights. Anyone wishing to sell or trade at our meetings must be a member.

AUCTION ETIQUETTE :

Be sure to get your Bidder's number card before the auction starts. Come early and look over the lots for sale before the auction. During the auction, lots will be identified by their lot number and a brief description of the lot.

When bidding for a lot, please raise your Bidder's Number card and keep it up until you no longer wish to bid. Flipping the card up and down is confusing for the auctioneers.

Please keep extraneous conversation to a minimum. This makes it easier for everyone to hear what the auctioneer is selling, and allows the auctioneer to more easily keep track of the bidding.

While your purchases will be given to you during the auction, please wait until the end of the auction to pay for them. Your name will be called as the tallys are completed. Those who are only buying will be called first. Buyers who are also sellers will be called next. Checks made out to S.A.P.A. are acceptable. Sellers with unsold lots should be sure to pick up their lots before leaving.

Please be sure to return the Bidder's Number cards so that we can use them again in the following auctions.

We look forward to meeting you.

President's Message

According to the weather forecasters we are over the hump for high daytime temperatures and it should all be downhill from this point on. I think we still have another month of 90+ temperatures. All we need now is some rain. But be careful what you wish for. One year ago we were all watching Hurricane Harvey come ashore and wreak havoc on the coast and Houston. The cost of rebuilding is going to cost billions.

A philatelic solution that other countries use for this type of disaster that the US has never used is the Semi-postal Stamp. There could be a semi-postal stamp for each hurricane over a certain value lost. But why stop there? Semi-postals for major wild fires, earthquakes, floods and tornadoes. What a great new line of collecting.

Dr. Eric Shepherd *September 2018*

Fred's Corner

SAPA Historian's Reminder:

I want to remind everyone to be on the lookout for ANYTHING related to SAPA when you are reviewing your collection or rummaging through any sort of paper (postcards, newspapers, etc) from 1950 back to our beginning in the 1890s. Items that have been found recently include a listing of our club activities for February 1945, and reports of two different annual meetings of SAPA back in the 1890s. Where were these items found? In a dealer's 50 cent box of covers, on Ebay, and in the detritus of one of our deceased members.

This material has been sent to the Wineburgh Philatelic Library at UT Dallas. There the records of our club are maintained for anyone doing research on philately in San Antonio. I have been to the museum and seen our records. They are professionally preserved, and in much better condition than what we could provide here. Our history needs to be preserved.

Bottom line: Please keep an eye out for anything paper that is from, or about, SAPA. When you see it, or learn about it, let me, or any director, know.

Fred Groth

PS. Electronic copies of old paper are also welcome as digital records are also maintained at the Wineburgh.

Rerun of important info!

Blue Chip Auction

Important Information

We will have our Blue Chip Auction on December 7th, 2018. Our auctioneer, Jack Virta, needs to receive all lots for the auction by the September 14th meeting. This is because, in order to publish the list of lots in the Nov-Dec Philatex, they must get to me by October 6th, to be mailed out in the Nov-Dec issue. The lots will be on display at the 1st and 3rd club meetings of November.

If you miss the deadline, you can still place your lots in the auction on the 7th. They just will not be on the list. Lots placed in auction late may or may not be **Blue Chip condition**.

Each lot for this auction must have a minimum catalog value of $20.00. Please make sure all lots are in **Blue Chip condition**. As always, mail-in bids and other in-advance bids will be accepted. Contact Jack at 210-826-4826, or email him at < virta.jack@gmail.com >.

How to Make Your Own Stamps

by Kevin Blackston July 20, 2018

Here we have a picture of Kevin Blackston (the guy) who is holding a picture of some perforating machines that he owns and his daughter who, herself has designed some of her own stamps.

Kevin laid out his presentation in a very well-organized pattern!!! He began telling us what he was going to discuss. He described what a Cinderella, local post or fantasy post is!! He has been making his own personal post for about 15 years. He is presently editor for a Local Post Collectors newsletter called *The Poster.*

In the Design process he listed:

1) Pick a subject—decide who or what you want your stamp to be about.

2) Do the initial sketches, or blocking out of the design.

3)Use your computer software—Photoshop, Paint.net, Gimp, Paint for Windows or Inkscape.

4) Your design should exhibit some purpose.

The next stage is the Production process:

1) Lay out you finished design in row and columns, then print— inkjet or laser print is fine.

2) Paper choice should be acid free.

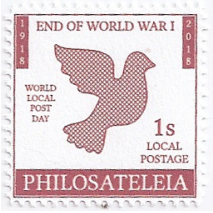
3) Adhesive—Glue is necessary to attach your stamp to the envelope.

4) Separating your stamps—you can cut the stamps apart, perforate them with a tracing wheel or use a perforating machine if you really want to be exciting.

The Last stage is Using your stamp:

1) Place on the envelope far away from the regular postage to avoid confusion.

2)The cancellation options are easy: pen and ink, rubber stamp, or carved cork (as in a wine cork).



Finally:

3) Postmarks – Pen and Ink, custom made date stamps, rubber stamp sets, or you can let USPS handle postmarking.

Why???

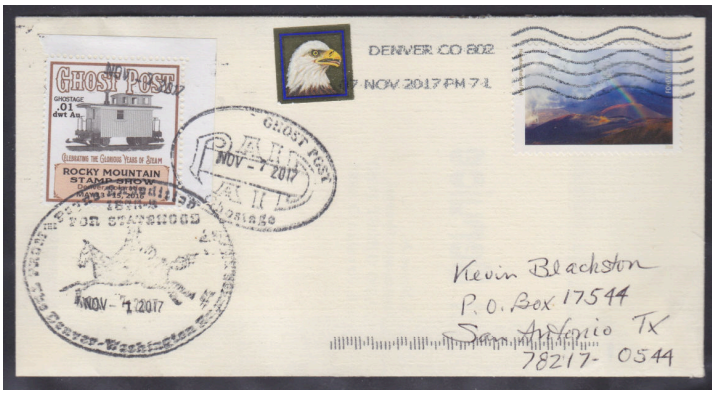
1) It's fun.

2) It's a challenge.

3) You get a great appreciation for a well-designed well-produced stamp!!!

Kevin ended his presentation with some samples of stamps to give to everyone present (shown above).

He showed us some of the covers that have been mailed by his organization.



Here are some examples of souvenir sheets.

He further said that he would be glad to assist anyone who wants to make their own cinderellas that he can be contacted at philosateleia.com

Kevin's program was very well received by all!!!

Kevin even had his own fan club there:

Thank you , Kevin for a most informational presentation!!!

We are looking forward to another program by you!!!

Yours in Philately, Pat Richmond
