EDITOR'S CORNER

The first-ever Labor Day happened on September 5, 1882, and began when members of New York's Central Labor Union marched in protest of unsafe work conditions, but also to honor the benefits of the union. Approximately 10,000 workers marched from City Hall to 42nd Street in New York City. 23 more states were recognizing Labor Day by 1894. That same year, President Grover Cleveland signed Labor Day into law, but this triumph for workers everywhere became so largely in part due to tragedy. During what became known as the Pullman Strike of 1984, President Cleveland sent troops and U.S. Marshals to deal with the 125,000 railroad workers on strike. Ultimately, 13 workers were killed and 60 were injured as a result. Despite Cleveland declaring Labor Day a national holiday in 1894, railroad workers didn't really reap its benefits until 1916 when President Woodrow Wilson signed the Adamson Act. According to the National Employment Law Project, the Adamson Act officially made an eight-hour workday the legal standard.

DONATION AUCTION - Our annual Donation Auction is a way for our members to support our club. All proceeds go into the club funds and will help to support us in the following year. Another difference from our other auctions is that philatelic items have the regular limit, members can donate up to 5 non-philatelic items also. Bring a full pocket, and help support your club.

NEW LIBRARY CHECK-OUT POLICY - At the meeting on August 12, our new Library check-out policy was accepted, and unanimously voted in by the membership attending. See page 4 to read the new policy.

WE WELCOME VISITORS

Please view our website **sastamps.org** for information on our meeting schedules

SAPA is always happy to welcome visitors. We hope you will enjoy our activities and wish to join us as members.

All visitors are welcome to purchase stamps at our auctions, bourses and bag nights. Anyone wishing to sell or trade at our meetings must be a member.

AUCTION ETIQUETTE :

Be sure to get your Bidder's number card before the auction starts. Come early and look over the lots for sale before the auction. During the auction, lots will be identified by their lot number and a brief description of the lot.

When bidding for a lot, please raise your Bidder's Number card and keep it up until you no longer wish to bid. Flipping the card up and down is confusing for the auctioneers.

Please keep extraneous conversation to a minimum. This makes it easier for everyone to hear what the auctioneer is selling, and allows the auctioneer to more easily keep track of the bidding.

While your purchases will be given to you during the auction, please wait until the end of the auction to pay for them. Your name will be called as the tallys are completed. Those who are only buying will be called first. Buyers who are also sellers will be called next. Checks made out to S.A.P.A. are acceptable. Sellers with unsold lots should be sure to pick up their lots before leaving.

Please be sure to return the Bidder's Number cards so that we can use them again in the following auctions.

We look forward to meeting you.

PRESIDENT'S MESSAGE

Hello fellow philatelists. Things are really picking up at our Friday meetings.

Firstly, we are having stamps available at every meeting in the form of a silent auction, just like we used to do. Anyone can sell a few items at any meeting.

Secondly, we have welcomed four new active members, Mark Brill, John Brock, Jose Rivera, and Michael Vogelsang.

Thirdly, at auctions, more members are bringing really diverse and interesting items, which makes for very good auctions. This is very good for our club, and fun, too.

Lastly, it seems like more members are learning about the interests of each other, and there is some serious buying, selling & trading before and after almost every meeting.

We are having fun at all the meetings, and we hope to everyone back soon along with more new members.

Yours in Philately, *Chip Swinney*

Program Notes

Sep 23 - "Stamp Management Tutorial" by Rick Cross

Rick, we have not had a program from you as yet! Ah, something to look forward to!!! My understanding is that this tutorial is to the stamp management system that you use for your French Art. Philatelists are always on the look-out for new organizational systems for their Philatelic Items, be it covers, topics, cancellations, et cetera. Perhaps this new system is just the "cat's meow".

I'm looking forward to seeing what your system has to offer! ***Yours in Philately, Pat Richmond***

SAN ANTONIO PHILATELIC ASSOCIATION

Subject: Procedures for the Loaning of Association Library Literature

The Association Library of Scott Catalogs and other literature is a valuable asset and must be safeguarded accordingly. That said, to maximize the usage of the Library material, use the following process when a member in good standing wishes to check out an item:

1. Obtain approval from a Board Member.
2. Annotate on the Sign-Out Sheet all required information, including the Board Member's initials.
3. Obtain a Board Member's initials in the appropriate block on the Sign-Out sheet as proof of return.

The loan period is one week, extendable in one-week increments if no other member wishes to check out the same publication. If another member wishes to use that item, they will have priority for one week.

If a Member with a loaned item is unable to attend the next meeting, they should arrange for another Member to return the item at the required time.

If a Member loses an item or, in the opinion of the Board, damages an item to the point of uselessness, they will be responsible for replacing that item.

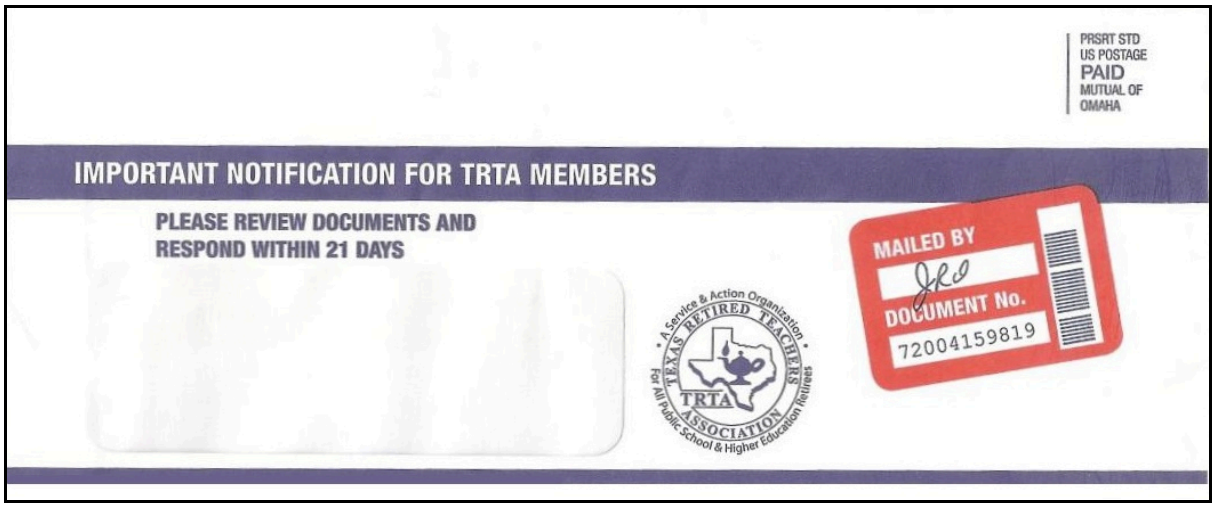
This procedure will be entered into the Minutes of a Board meeting as acceptance.

"Why do we buy stamps if we are not going to use them?"
by
Fred Groth
July 23rd, 2022

Fred poses a good question. Why DO we buy stamps if we are not going to use them? Fred divided his talk into 4 main categories of Non-stamp postage:1) Meters,2) Computer stamps 3) USPS mailing abbreviations and 4)Presort standard.

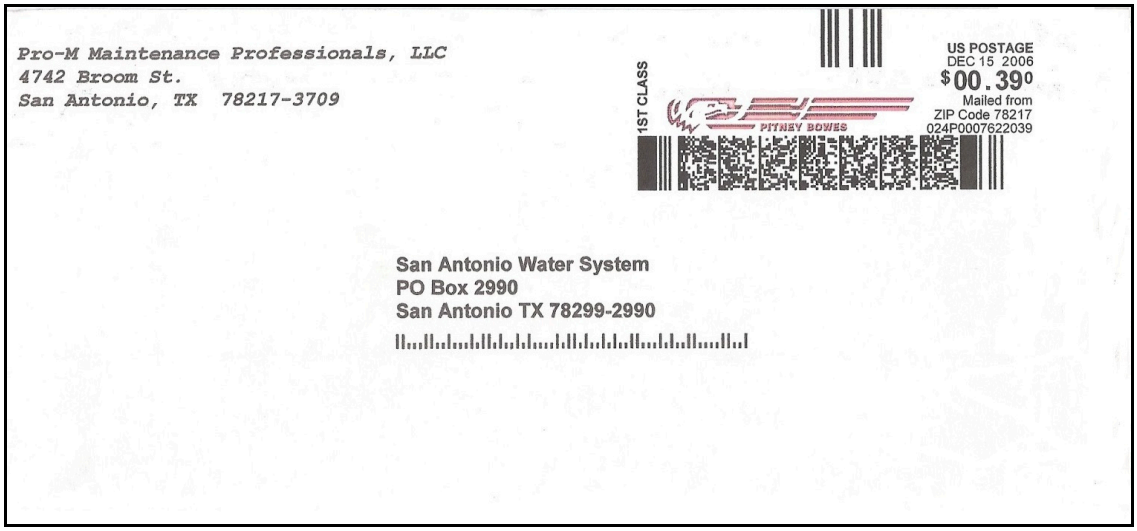
Fred is holding up his favorite of the colorful examples.

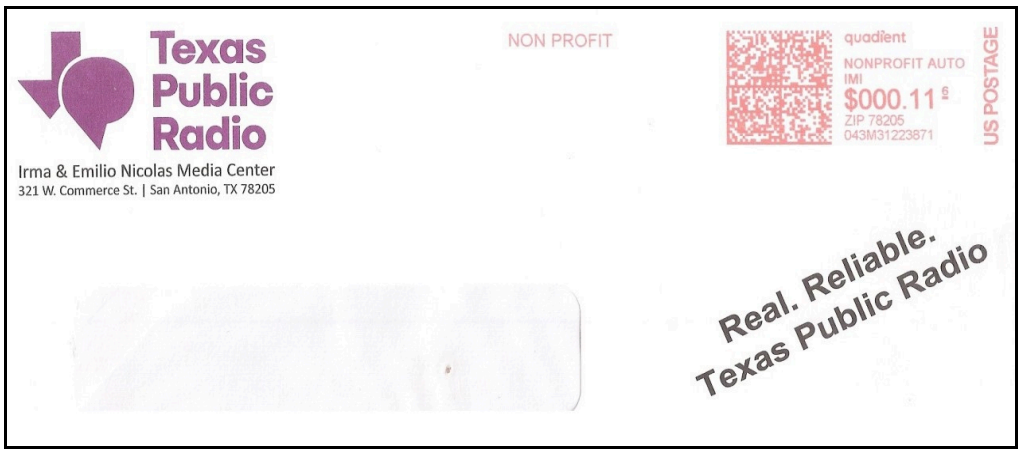
One of my favorites was the one from TRTA:



Of course, anything to do with retired teachers will interest me!!!

The two computer stamps examples I found interesting were the Pitney Bowles and the Quadient (entire envelope)





However my very favorite is the following advertisement for Fred and his family and I suppose all the other retirees who live in their condo and have NO lawn,etc., is this ad from a 'Tree Service.'

MONSTER Tree Service

I think that Fred has proven that the unfortunate hobby of the philatelist is just that! We are of a bygone era in which snail mail was important! Thanks, but no thanks, I prefer to stay in the snail mail generation!!!

Anyway, Fred, your program in addition to being a little scary for us old folks, was most enlightening. Thanks for your research!!!

Yours in Philately, Pat Richmond
